

23rd Avenue Corridor Improvements Project

Lane restrictions on E Madison St begin as soon as September 29

Traffic changes beginning as soon as Thursday, September 29:

- Crews will maintain eastbound, westbound, and southbound traffic at the 23rd Ave and E Madison St intersection, but there will be temporary lane restrictions:
 - Lane restrictions will begin on the south side of E Madison St but will shift during the work; expect temporary parking restrictions near the intersection
 - Work will take place during weekday business hours, but the lane restrictions will stay in place 24/7 for multiple weeks
 - The lane restrictions will allow crews to begin to demolish and pave the intersection while maintaining access to community destinations; this will reduce the number of full intersection closures required
- Pedestrian and transit access will be maintained; bus stops for King County Metro routes 11 and 84 may be temporarily shifted around the work zone
- As a reminder, the northbound closure of 23rd Ave from E Madison St to E John St will remain in place through the completion of work in early 2017
- Call 206-727-8857 or email us at 23rdAveCorridor@seattle.gov if you have any questions about this work
